

Season's Greetings from Eurofoil

December 2012

Dear Business Partner,

What a year it has been for the team here at Eurofoil. In July, we became part of AIAC (American Industrial Acquisition Corporation) and launched Eurofoil, which unites the foil rolling mills in France (Rugles) and Luxembourg (Dudelange) with our paper coating operation in Germany (Berlin). Being a large and important part of AIAC has given us a unique opportunity to re-focus on our products and markets and plan strategically for a sustainable future.

In the first six months of Eurofoil, we have harnessed the experience we gained previously within some of the world's largest aluminium companies, along with a new fresh outlook to build a strong foundation. With a good safety record, stable financing, encouraging business KPI's and sound partnerships with our key stakeholders, Eurofoil is looking forward to enhance the business in 2013 through continuous improvement in the plants and technical innovations in partnership with our team of dedicated scientists at the Eurofoil Innovation Centre in Luxembourg.

Eurofoil is fully committed to the long term future of our industry. As members of key associations such as EAFA (European Aluminium Foil Association) and Alupro (UK Aluminium Recycling Association) we actively support initiatives to develop the interests of our industry and markets and to reduce the environmental impact of our products.

As this exciting year draws to a close, we would like to take this opportunity to thank you for your support as we have embarked on this journey together. We look forward to continuing to work with you, as a reliable partner, next year and beyond.

With our sincere wishes for a safe, peaceful and happy holiday season and our best wishes to you, your families and your businesses in 2013,

Willem Loué
Managing Director

Andreas Zenz
Commercial Director

Philippe Corron
Technical Director

Antonio Falchi
Purchasing Director

Jean-Yves Poussardin
Plant Manager Dudelange

Alain Haderler
Plant Manager Rugles

Michael Koblitz
Plant Manager Berlin
